

KIANGSU-CHEKIANG COLLEGE (SHATIN)

Ref. No.: 6

September 20, 2017

Dear Parents

Injection of influenza vaccine

Influenza or flu is a virus and can be caused through aerial infection. In small areas with a high population density as Hong Kong, influenza is widespread easily. In general, it takes more than a week to get fully recovered from this disease. Serious complications, such as myocarditis, pneumonia, encephalitis or tympanitis, etc. may also be induced and may even cause death. The peak seasons of influenza are in winter and spring. In order to protect the health of the students and parents, the Kiangsu Chekiang & Shanghai Medical Centre of our school sponsoring body, Kiangsu Chekiang And Shanghai Residents (Hong Kong) Association will provide vaccination for the students and parents in the school hall on Tuesday, November 14, 2017 from 9:00 a.m. to 12:00 noon. The fee for each injection is HK\$200.00. The influenza vaccine, 2017/18 new quadrivalent influenza vaccine (Flurix-tera), is produced by GlaxoSmithKline Limited, it contains:

- an A / Michigan / 45 / 2015 (H1N1) pdm09 – like virus
- an A / Hong Kong / 4801 / 2014 (H3N2) – like virus
- a B / Brisbane / 60 / 2008 – like virus
- a B / Phuket / 3073 / 2013 – like virus

Please complete and return the reply slip together with the injection fee (if applicable) to the Class-teacher via your child on or before Tuesday, October 3, 2017.

Yours faithfully

WONG CHONG YEE
Principal
