

AVIATION SUMMER DAY CAMPS

This summer, HKIAA has designed a series of Aviation Summer Day Camps for young people aged 16 or over with an interest in understanding more about how the aviation industry works.

These five-day short courses cover basic aviation knowledge, with an emphasis on air transport, aircraft maintenance, aviation services and aviation logistics.

 Duration	5 days
 Fees	HKD1,800
 Locations	HKIAA, 6/F, Airport World Trade Centre
 Language of instruction	Cantonese
 Who should attend	Young people aged 16 or above

Notes : HKIAA reserves the right to adjust the course fees and schedule. For details, please visit our website.

Air Transport Summer Day Camp 16 – 20 July 2018

This five-day camp focuses on inspiring young people to become pilot and air traffic controllers. On completion of the camp, participants will have a basic knowledge of the trends, functions and everyday operations of the aviation industry. Specialists across various aviation fields will share their practical experience with participants. Site visits (e.g. airside of HKIA and Government Flying Services) are included to enhance the learning experience.

Cabin Crew, Ground & Ramp Services Summer Day Camp 23 – 27 July 2018

This five-day camp focuses on inspiring young people to pursue a future career as a member of the cabin crew or ground and ramp services team. On completion of the camp, participants will have a basic understanding of the various aviation services. Talks given by industry practitioners and site visits (e.g. airside and restricted area at HKIA, ground service providers) are included to enhance the learning experience.

Aircraft Engineering Summer Day Camp 06 – 10 August 2018

The five-day camp encourages young people to pursue aircraft engineering professions and promotes aviation knowledge. On completion of the camp, participants will acquire basic knowledge in aircraft engineering and discover how the daily operations involved in aircraft engineering, air transport and air traffic control interrelate. Specialists across various aviation fields will share their practical experience with participants. Site visits (e.g. airside at HKIA and aircraft engineering company) are included to enhance the learning experience.

Aviation Logistics Summer Day Camp 13 – 17 August 2018

The five-day camp inspires young people's interests in aviation logistics by exploring different areas, including air cargo operations, aviation fuel supply, airline catering and business aviation. On completion of the camp, participants will have a basic understanding of the daily operations of aviation logistics in HKIA. Site visits (e.g. airside and cargo area of HKIA, cargo and air freight, airlines catering) are included to enhance the learning experience.
